### In Publicity There is Safety.

Shelbyville Record.—Few subjects were discussed at the meeting of the Kentucky Press Association at Estill Springs last week that are of more importance than that of uniform inspection and accounting. It is proposed to have a law passed at the next meeting of the General Assembly providing for a better system of book-keeping in State, counties and municipalities, and it must be conceded that such a system is needed everywhere. There are public officials who are absolutely honest and there are those who are not. Honest men are not afraid of publicity, and dishonest men should have no voice in the matter.

M. H. Thatcher, State Inspector and Examiner, made an excellent argument before the editors assembled at the meeting for the passage of the law which he will draft and present to the General Assembly at its next session. He said, among other things:

"Inspection, in its full sense, and as we hope by law to apply it in Kentucky, means that the accounts of every public office and department in the State, whether of State, county, city, town or school district or other taxing subdivision or unit shall be rigidly and in a strictly non-partisan way examined under the supervision of a State bureau of inspection at timely intervals, usually once a year, but without notice and due report thereof made, published and disseminated for public information and advantage. The requirements as to classification and uniformity of all public accounts. First, methodize all public offices; second, train public officers to the strictest, simplest business systems; third, educate those officers to a correct understanding and application of the laws and ordinances; fourth, render the inspection of such offices a comparatively simple matter: fifth, enable the compilation of complete and accurate data for educational, comparative and financial purposes."

Surely this is a programme which will appeal to any reasonable man and to any official who has the welfare of State and county at heart. If there are any who would oppose it they must be, as Mr. Thatcher puts it, "the designing, the corrupt, or

### the misinformed."

A former County Clerk is now in jail at Paducah because of a shortage of several thousand dollars in his office, due principally to padding claims. The case of Judge Boone, who fled thousands by the same method while a clerk in the State Auditor's office, is still fresh in the public mind. There is a hardly a doubt that petty "grafting" of this kind has been prevalent in various localities. Overcharges of more than \$3,000 in two counties have been exposed recently by Mr. Thatcher's investigations. Instances where the shortages have been comparatively small are too numerous to mention, but in the aggregate these will amount to a large sum. Much of this is due to ignorance. Some of it is "graft" pure and simple.

By what right can anyone object to the proposed law? Public officials are presumed to be the servants of the people. They are entitled to the salaries, or fees, that the law allows, and no more. In publicity and a systematic way of arriving at what is being done by those who handle the public funds is safety to the tax-

payers. Let us do what we can for the passage of such a law.

### A Good Neighbor.

A good neighbor is always the most desirable of possessions, although in some cases their social value is underestimated. What constitutes a good neighbor is also frequently misconstrued, although the sensible acceptance of the term is, the neighbor who is friendly without being obnoxious, helpful without being superfluously so, and finally, one who respects the privacy of others' household affairs by a certain degree of formality of manner.

The social neighbor is not always the useful neighbor, yet each in her place has special influences to exert of equally beneficial consequences.

The sympathetic neighbor is also a popular one, but she has to exercise continuous tact, lest her soliciting influence may occasionally be overdone or utilized at untimely periods. The inquisitive curiosity, as she does not seem to have any intuitive respect for others' feelings as regards their divergence of personal affairs to an outsider.

The truest and most respected of all neighbors, however, is the one who always speaks well of everybody, who devotes the largest share of her sympathies to her own affairs, is chary of administering unsolicited advice, and who always waits until her social and useful capacities are requested, and never renders herself officious even in her most sanguine efforts at proving to be a good neighbor.

### FOR YOU AND YOUR WIFE

A cheerful, pretty bedroom will help you to start your day in a cheerful pleasant mood. Its a haven of rest for you to come back to at night. And all day long it is a pleasure to your wife.

To make a pretty bedroom it is more important to have tasteful furniture that harmonizes, than furniture that merely costs a lot. A brass bed, or a pretty white iron bed if you prefer, bureau and chiffonier of light color (birdseye maple is especially pretty) a low rocking chair and one or two straight back chairs to match, a mirror five foot high screwed on to a closet door, a sofa upholstered in cretonne, a shirtwaist box covered with the same, and the cretonne repeated in hangings at the window over white muslin curtains, a light colored rug on the floor,—all this does not cost very much, if you buy from us, and makes a pretty room. Come in and talk it over.

Don't forget to get a STEARNS & FOSTER mattress. That is what makes your bedroom a haven of rest. No other mattress is so comfortable.

Made in four grades of superiority: \$10.50 to \$22.50. Windsor Grade at \$13.50 is guaranteed superior to any other advertised mattress. We sell it on 60 nights' trial. If you can part with it at the end of that time we will return your money without question or comment.
